PGWH1010 GAS WATER HEATERS

Features

Instant heating:

No waiting for the heat to build up over hours, just turn the knob and you have instant warm water

Highly flexible in usage:

The Qlima PGWH1010 is extremely flexible in usage. All it needs is fresh water and a bottle of gas. Warm water is at your fingertips everywhere.

Highly flexible, light in weight:

This heater is very light weighted and flexible in use. Due to its size also very easy to store.

Easy 2 knob control:

With only 2 control knobs the water flow and the water temperature can easily be adjusted.

Refurbishment:

Where to take a shower when you are refurbishing your bath room? Here is the solution! Simply position the PGWH1010 at a convenient location and you can enjoy a warm shower in minutes!

Stables, sheds, cars and campsite:

The PGWH1010 allows you to have warm water every where around your home. Clean your car with warm water? Easy! Wash your horse or dog with a comfortable temperature water? Easy! Go camping and enjoy a nice hot shower? Easy!

Water Control Automatic Ignition:

With the water control automatic ignition the heater can be ignited easily. Besides that this is very convenient it is also very safe, because when no water flow the heater will not ignite

LED display:

The LED display makes it easy for the user to select the correct warm water temperature.

Auto-cut-off protection:

Extra safety: the auto-cut-off protection will shut the gas supply off immediately in the event of flameout.

Removable drain valve:

Freezing prevention included: the removable drain valve will avoid water pipe and regulator damage caused by freezing water.

Anti-dry combustion protection:

Extra safety: the portable tankless water heater will shut off the gas supply in the event water stops flowing through the portable tankless water heater.

Design:

The Qlima gas heater is part of a pragmatic designed range of Qlima products.

Complete set:

The PGWH1010 portable water heater comes complete with shower head with hose, space gaskets and a set of screws to allow you to position the appliance.
