

Product data sheet

Product category	Gas heater
Brand	Qlima
Model	GH 825 C
Colour	Black
EAN code	8713508783239

Technical specifications

Heating capacity steps		3
Heating capacity	kW	2,5
Gas connection		2-in-1 Connector
Energy efficiency class		A
Consumption	g/h	95/116/182
Autonomy	h	158
For rooms up to	m ²	20 - 32
	m ³	50 - 80
Gas cylinder capacity (max)	kg	15
Max. gas bottle dimensions (Ø/h)	mm	330 / 575
Control		mechanical
Dimensions (w x d x h)	mm	420 x 287 x 725
Net. weight	kg	8.5
Guarantee	years	2

20 ft = 255
40 ft = 510
40 HQ = 620

W x D x H =
45,8 x 32,3 x 75,2 cm

Gross weight
10 kg

Package content

Gas heater, User manual

Accessories (not included)

Description	EAN code

Qlima

3 Temperature settings

ODS

Oxygen detection safety system

Tip-over safety switch

Easy to move

Piëzo ignition

Features

Catalytic heating: The catalytic burner produces a combination of approx. 80% convection heat and approx. 20% radiant heat. This ensures a constant, even ambient temperature and an immediate sensation of warmth without a visible flame.

Safe heating: The catalytic nature of the heater makes it a safe heater for garages and workshops. It features no naked flame except for the pilot flame.

Heating settings: The gas heater has 3 heating settings, to adjust the heating capacity according to the desired room temperature.

Instant heating: No waiting for the heat to build up over hours, just turn the knob and you have instant radiated heat to warm your hands and feet. At the same time gently warming convection heat will bring a warm glow to the whole room.

Efficient and quiet: The gas heater is efficient and quiet as no blowers or fans are required to distribute the heat.

Design: This gas heater is part of a robust range of Qlima products.

Full colour box: The unit is delivered completely with auxiliary parts in a full coloured box showing applications and operation information in several languages.

Castors: For easy movement the gas heater is provided with castors.

Flexible: The gas heater is capable of heating any room at any time. All gas heaters are highly versatile, highly mobile and can be used to provide extra warmth to draughty hallways and lounges or for keeping you warm whilst working in the studyroom.

Oxygen depletion sensor (ODS): The gas heater is equipped with oxygen depletion sensors (ODS). These sensors can tell how much oxygen is left in the air. If the oxygen level decreases then this activates the sensor and the gas shuts off to the logs. All of this happens long before you would feel the effects.

Piezoelectric ignitor: This device takes care that the heater can be ignited easily. No matches or lighters are required to start the heater.

Tip over safety switch: The tip-over switch will automatically shut the gas heater off when the unit is turning over.
