

Product data sheet

Product category	Humidifiers		
Brand	Qlima		
Model	H 408		
Colour	White / Blue		
EAN code	8713508772967		

Technical specifications

Evaporative capacity ¹	l/24h	7,5	
Autonomy ¹	h	24	
Power consumption cool mist / hot mist ²	W	cool mist	23
		hot mist	n.a.
Power supply	V/Hz/Ph	220 - 240 ~ / 50/60 / 1	
Current nominal	A	cool mist	0,19
		hot mist	n.a.
Suitable for space ¹	m ³	100	
Capacity water tank	l	5,6	
Operating range ¹	°C/RH%	5 ~ 40 / 40 ~ 70	
Sound pressure noise level at 1 m (SPL)	dB(A)	42	
Humidifier system	cool mist	ultrasonic (cold mist)	
	hot mist	n.a.	
Control	electronic		
Adjustable evaporation (low/medium/high)	Yes		
Negative ions generated	ions/cm ³	0	
Included filters	n.a.		
Dimensions (w x d x h)	mm	182 x 259 x 328	
Net. weight	kg	2,5	
Length power cord	m	1,8	
Protection class	IPX0		
Guarantee	years	2	

¹ For indication only, depending on ambient condition.

² Power consumption is dependant on the selected mode.

Accessories (not included)

Description	EAN code
Water softener filter H609/-408	8713508782058

Qlima

Ultrasonic technology

Very silent

Removable water reservoir

Auto-stop function

Features

Ultrasonic technology: Due to the use of ultrasonic technology the energy consumption of the unit in cool mist mode is low.

Water softener: Reduces calcium and magnesium deposits in the unit. Since the evaporated mist contains less calcium and magnesium white coating on and around the unit will be reduced.

Stylish design: The outlook of this unit with black/silver skin combined with blue LED display gives the unit a high-end futuristic look.

Quiet operation: The humidifier works with an extremely low noise level, comparable with whispering level. The only thing you here is the tranquilizing sound of the bubbling of water every now and then.

Controllable humidity capacity: The required moisture output can be adjusted by means of a button, 3 mist capacities can be selected.

Hygrostat: The required humidity can be selected by the hygrostat button. Humidity can be set between 40 and 70% in steps of 5%.

Large water container capacity: The humidifier is equipped with a large 5.6 liter water container. Due to the larger size of the water container the unit can operate for at least 24 hours continuously, without water refill.

Rotatable top cap: The unit is provided with a rotatable top cap, introducing a 360° selectable moisture flow outlet direction.

Refill indication: When the unit needs to be refilled this is indicated on the display and by means of an alarm sound.

Cool mist: Due to the ultrasonic system, the discharged water vapour is cold (no risk of burn injury).

Safety device: When the water container is empty, the unit switches off automatically.

Full colour box: The unit is delivered in a stylish full colour box showing application and operation information in multiple languages.

Note: The humidifier has to be cleaned periodically to avoid damage by scaling. Use the same agent as for your coffee machine.
