## Features

---

### Protection home vacuum cleaner

When you use your normal home vacuum cleaner to clean BBQ, wood or pellet stove from ash / dust you will experience the full filter problem very fast. To overcome this problem the Qlima Ash collector can be used in between. You can now clean with your own home vacuum cleaner without the risk of a too quick full filter.

---

### Use

The ash collector is usable for all cool ashes: BBQ, wood stoves and pellet stoves

---

### HEPA filter

The ash collector contains a HEPA filter. This filter is washable

---

### Big tank

You don't want to empty everytime the tank. So this ash collector has a big tank of 20 liter.

---

### No motor

There is no motor at the collector. It is an extension of your vacuum cleaner.
