

BWK 1618

WINE COOLER

Product data sheet

Product range	Wine Cooler
Brand name	Qlima
Model	BWK 1618
Positioning	built-in
EAN code (no side panels)	8713508773728

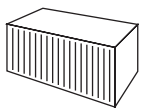

Technical specifications

Standard bordeaux bottle quantity (750 ml)	bottles	18
Total internal value	L	58,5
Energy efficiency class		A
Number of zones		1
Power consumption	W	90
Mains voltage	V / Hz / Ph	220-240 ~ / 50 / 1
Current (nom.)	A	1
Temperature range int. min-max (zone 1 / zone 2)	°C	5 - 22
Compressor / thermo-electric		compressor
Number of storage layers		6
Shelf type	wood/stainless	wood
Interior light		Yes
Control		Electronic
Electronic display		Yes
Reversible door		Yes
UV-protection glass door function		Yes
Sound power level ***	dB (A)	40
Dimensions Northern-Europe (w x d x h)	mm	295 x 575 x 870
Dimensions Southern-Europe (w x d x h)	mm	tba
Nett weight	kg	31,5
Refrigerant (type/weight)	../gr	R600A/18
Compressor type		Rotary
Protection class	IP	X0
Climate class		N/S'N
Guarantee	years	2

BWK 1618 WINE COOLER

Internal ventilation

Vibration protection

UV protected glassdoor

Interior light

Reversible door

Scent filter

Features

Internal ventilation

The temperature inside the wine cooler distributed evenly through the wine cooler. There are no hotter / colder zones.

Vibration protection

Vibrations disturb the naturally occurring sediment in wine, which will disturb the natural aging process of wine. Vibrations cause movement which will age wine and cause excessive heat. This Qlima wine cooler is designed to limit vibrations to a minimum so that your wine rests disturbance free.

UV-protection glass door function

UV rays can be extremely harmful to wine. Qlima wine coolers have UV-protection glass in the door, so your wine is protected from harm and will remain in optimal condition.

Electronic display

The unit is equipped with an electronic display (LCD) which provides clear information easy to read.

Interior light

The modern blue interior LED-light is helpful when viewing and selecting from your wine collection. It also make the wine cooler an eye-catcher in your kitchen or living room.

Suitable for Built-in and Free standing

This wine cooler is suitable to be built into existing counters and cabinetry as they include a front vent located under the door that channels heat forward away from the unit. The unit can also be used free-standing.

Reversible Door

This wine cooler comes with the option of changing the direction the door will swing. The procedure of changing the door direction is very easy. Directions can be found in the user manual of the unit.

Scent filter

Some gasses in the air can deteriorate the taste of the wine rather fast. The cork will not stop this process. The active carbon filter in this Qlima wine cooler protects your wine from odors that could be detrimental to your wine.

Extractable wooden shelves

The high-end wooden shelves are partially slideable. This makes it easy to check the bottle or label of the wine.

Design

The Qlima wine cooler has a high-end appearance.
