Features

Tempered safety glass: Provides more safety. The glass can resist temperatures up to 300 C and sudden temperature decrease (e.g. cold water). And in the unlikely case of falling, the glass will crumble (like car windows). The corners of the glass are rounded for extra safety.

Designed for easy filling: The burner is designed with ease of use in mind. Filling the burner with fuel is easy as possible and has amongst the easiest way of filling in the whole market.

XL burning time: The highly efficient burning of the fuel results in extra king burning time. With its burning time of ||BurningTime|| minutes this Qlima Deco Fire has one of the longest burning times in the market when compared to similar models.

Qlima fuel safety: Absorbs the ethanol

No spillage of the fuel possible, even when the burner is upside down.

Double safety burner: For more safety and prevention of spilling, the burner is equipped with an extra fuel chamber that captures excess fuel when filling.

Qlima absorber: Enhances the fire time. Compared to non-Qlima absorber, the burning time is 20-30% longer. The flame also burns more evenly.

Bio ethanol: Bio ethanol fire gives you a warm feeling and creates a good atmosphere.

Extinguishing tool: A matching extinguishing tool is included. The fire can easily be extinguished.

Free standing: This deco fire is suitable for any patio.
