

FFB 207

Decorative ethanol fireplace

Product data sheet

Product category	Ethanol fireplaces
Brand	Qlima
Model	FFB 207
Colour	Black
EAN code	8713508775920

Technical specifications

Burner material	Stainless steel	
Burner volume	ml	50
Fuel compatibility	(Bio) Ethanol	
Burning time	min	45
Burner capacity	W	500
Easy to fill	Yes	
XL burning time	Yes	
Glass type	n.a.	
Qlima absorption system	Yes	
Safety features	Tip-over switch / Anti-spillage	
Extinguish tool	Yes	
Dimensions (w x d x h)	cm	240 x 160 x 260
Net. weight	kg	2
Warranty	years	2

Package content

Decorative ethanol fireplace, Extinguisher, User manual

Accessories (not included)

Description	EAN code

Qlima

Extra long burn time

Designed for easy filling

Double safety burner

Extinguishing tool included

No spillage even when turned upside down

High end design

Free standing: This deco fire is suitable for any patio.

Designed for easy filling: The burner is designed with the mindset for ease of use, filling the burner with fuel is easy. Moreover, it has most easiest way of filling in the whole market.

XL burning time: The highly efficient burning of the fuel results in extra burning time. With its burning time of ||BurningTime|| minutes, this Qlima Deco Fire has one of the longest burning times in the market when compared to similar models.

Qlima fuel safety: Absorbs the ethanol. Spillage of the fuel is impossible, even when the burner is upside down.

Double safety burner: For more safety and prevention of spilling, the burner is equipped with an extra fuel chamber that captures excess fuel when filling.

Qlima absorber: Enhances the fire time. Compared to non-Qlima absorber, the burning time is 20-30% longer. The flame also burns more evenly.

Bio ethanol: Bio ethanol fire creates a warm and good atmosphere.

Extinguishing tool: A matching extinguishing tool is included. The fire can easily be extinguished.
