

GH 2042 R GAS HEATERS

Product data sheet

Product range	Gas heater
Product type	Ceramic gas heater
Brand name	Qlima
Model	GH 2042R
Colour	Stainless steel / black
EAN code	8713508776712

Technical specifications

Number of heating settings		3
Capacity gas heating	kW	1.4 - 2.7 - 4.2
Gas consumption (min - max)	kW	0.100 - 0.300
Gas consumption (min - max)	g/h	100 - 300
For rooms up to	m ³	85
Control		Manual
Dimensions (w x d x h)	mm	415 x 370 x 710
Net weight	kg	9
Cylinder capacity (max)	kg	15
Gas bottle compartment size (diameter / height)	mm	370 / 660
Burner time tank (min - max)*	hr	50-150
Guarantee	years	2

* based on a gas cylinder of 15 kg

GH 2042 R GAS HEATERS

Features

Heater settings

The Qlima gas heater has 3 heating settings, to adjust the heating capacity according to the desired room temperature.

Instant heating

No waiting for the heat to build up over hours, just turn the knob and you have instant radiated heat to warm your hands and feet. At the same time gently warming convection heat will bring a warm glow to the whole room.

Efficient and quiet

The Qlima gas heaters are efficient and quiet as no blowers or fans are required to distribute the heat.

Safety cut off system

The gas heater features a safety cut off system which stops the flow of the gas to the heater if the flame extinguishes.

Design

The Qlima gas heater is part of an stylish range of Qlima products.

Full colour box

The unit is delivered completely with all auxiliary parts in a full coloured box showing applications and operation information in several languages.

Portable heater

Castors are attached underneath the heaters body, to move it easily.

Flexible

The Qlima gas heater is capable of heating any room at any time. All Qlima gas heaters are highly versatile, highly mobile and can be used to provide extra warmth to draughty hallways and lounges or for keeping you warm whilst working in the studyroom.

Oxygen depletion sensor (ODS)

The gas heater is equipped with an oxygen depletion sensor (ODS). If the oxygen level in the room decreases, the sensor is detecting this and the gas flow is stopped.

Piezoelectric ignitor

This device takes care that the heater can be ignited easily. No matches or lighters are required to start the heater.

Tip-over safety switch

The tip-over switch will automatically shut off the heater when the unit is tipped over
